PROFILE

With a passion for art, economics, and advanced technologies, I am always looking for new experiences, especially in the field of IT and AI. During my internship, I contributed as a full stack developer to the creation of Jobii, an innovative platform for creating CVs. This experience made me realize how important technology is. I am determined to contribute to digital advancement and ready to use my skills and knowledge for new professional challenges.

LANGUAGES

EDUCATION

- Associate Degree - Programming**
Odisee - Brussels | 2022 - 2024
Graduated in programming, with strong programming and problem-solving skills, focused on practical technological applications.
- Secondary Education - General Secondary**
Maria-Boodschaplyceum - Brussels | 2016 - 2022
Diploma in Economics - Modern Languages, where I developed in-depth knowledge in both economic principles and modern languages.

PROFESSIONAL EXPERIENCE

- Internship - Full Stack Developer**
Jobii - Brussels | February 2024 - June 2024
Developed a blog for Jobii's SEO with Nuxt and Vue and Node. Set up and managed a database, performed code testing, and provided extensive documentation. This project was designed to strengthen SEO and improve the future visibility of the website.
- Internship - Front-end Developer**
Jobii - Brussels | October 2023 - December 2023
Worked on a frontend page for investors in HTML, Vue.js, Nuxt3, and SCSS. I handled both development and UX/UI design, resulting in a professional and attractive user interface. This improved user experience and increased investor engagement.
- Student Job - Marketing and Sales**
NMBS - Brussels-Central, Belgium | July 2023 - August 2023
Supported various sales strategies. My contribution helped to increase product visibility and stimulate sales. This resulted in an increase in sales and broader brand awareness.
